DETAILED ACTION

Double Patenting

1. Claims 29-32 and 44-51 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-23 of US 7,223,828 for the reasons set forth in item 2 of the Office action mailed 5/21/2007. The prior provisional rejection has been converted into a non-provisional rejection because the application has issued as a patent. However, the grounds of rejection are identical with that previously stated.

2. Claims 52-63 are allowed over the prior art currently of record.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
